PROFILE

i am a dedicated frontend software developer with a unique academic background in chemistry. I leverage my analytical skills and attention to detail from my chemistry studies to create robust and user-friendly web applications. With a passion for coding and problem-solving, I bring a scientific approach to software development, ensuring that every line of code is efficient and optimized.

WORK EXPERIENCE

Frontend Developer

lost change 2021-2023

- Developed responsive and interactive user interfaces for web applications using HTML, CSS, and JavaScript.
- Collaborated with backend developers to integrate frontend components with server-side logic.
- Implemented UI designs and optimized performance across different browsers and devices.
- Conducted code reviews and contributed to agile development processes.

IT Assistant

Mastel and Peters company ltd 2019-2020

- Provide technical support to end-users regarding hardware and software issues.
- Install, configure, and maintain computer hardware, software, systems, networks, printers, and peripherals.
- Troubleshoot and resolve IT-related problems in a timely manner, escalating more complex issues to senior IT staff as needed.
- Assist in the setup and deployment of new equipment and software.
- Perform routine maintenance tasks, such as updates, backups, and patches.
